History - the story behind our City Logistics challenge

- Unprecedented major event - 204 countries
- No template to refer to or advise on - only 3rd time in London – 1908 , 1948 then 2012
- Over 1 million visitors a day in London
- Action teams to plan over preceding 3 years led by TFL
- Forced consolidation centre system , retiming , restricted access , business access controls and additional costs.

- **Restricted delivery access**
- **Business extended opening/closing**
- **Diversions and alternative delivery addresses – consolidation centre controls**
- **Customer understanding**
- **Retiming operations**
- **Cost implications**
- **Urban population average 6% increase in 63 Cities by 2025**

- Major event planning project initiated
- Key event manager to coordinate plan
- Work with customers and competitors
- Engage with controlling authorities
- Identify alternative ways to operate
- Think outside the box
- Manage cost and service impact
- Effective communication

Our Credentials

TNT UK Network

At TNT, we're **passionate** about what we do and how our people and network can support our customers in growing and delivering their business every single day.

Underpinning this is an **extensive network** of depots, hubs and vehicles which provides **businesses with a service local to them**. This is within a wider network which also delivers immediate access to customers

● UK depots
■▲ UK sort hubs

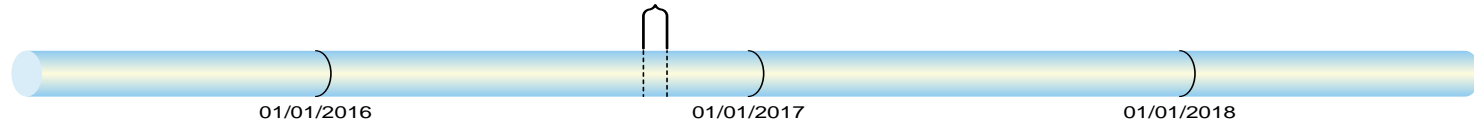

Potential solution

Gnewt/TNT Timeline
